  - b. Action required by Gary: After Ben/Peg have surnamed - Clear for Dan when they arrive.
  - c. Due date: Settlement requires packages to go to the FR by 9/30, but there is lots of required levels of review by FWS and ASFWP before then. FWS Region 4 required to get the packages to HQ (after SOL staff review) by 6/22).

## **AGENDA – DPW – April 16, 2018**

### **Parks Branch**

1. Wolf Trap Cooperative Agreement
  - a. Status of negotiations
  - b. Action required by Rick: none, FYI
2. Pending regulations
  - a. Alaska hunting
  - b. National historic register
  - c. TPM
3. NPS IG issues
  - a. Conversation with Dan J.

### **Branch of Environmental Restoration**

1. Financial Assistance vs. NRDAR Waiver
  - a. Action required by Rick: Informational at this time – possible discussion with Ms. Skipwith on Friday April 20.
  - b. Distribution of non-federal funds and NRDAR work has been delayed because of confusion regarding the status of NRDAR under the December 27, 2017 memorandum.
  - c. Issues to discuss include non-federal interest in the funds, point of transfer holds on previously authorized actions, and examples of other federal agency (DOJ, Treasury, etc.) waivers for NRDAR work.
  - d. Also, clarify that NRDAR cooperative agreements do not support third party programs – they are effectively contracts for specifically approved work carried out by non-commercial entities.
2. Coeur d'Alene and Portland Harbor Restoration Plans/EISs (**Carryover**)
  - a. Action required by Rick: surname pre SOL “front office” review.
  - b. USDA and NOAA lead/FR publication. Proffer because of DOI-required approval (as per NRDAR).
  - c. Relevant States, Tribes, and other federal agencies have approved.
  - d. Framework for integrated wetland, habitat, and recreational use (fishing, etc.) restoration projects.
  - e. Low/No controversy.

## **Fish and Wildlife Branch**

### **NEW BUSINESS**

1. Barred owl case cert. petition
  - a. This case is the challenge to the permit to take barred owls as an experiment to see how reduction of barred owls effects spotted owl numbers. We won in the district court and Ninth Circuit. Plaintiffs filed a cert. petition on 4/10. DOJ/Appellate is recommending to the SG not to respond because of the weakness of the petition. Philip concurs. I haven't reviewed the petition, but am not surprised—plaintiffs' briefs below were of very low quality.
  - b. Action required by Rick: FYI only (unless DOI wants to consider disagreeing with Appellate).
  - c. Due date: 30 days.
  
2. Congressional Review Act complaint re: PECE
  - a. The Kansas Natural Resource Coalition (a group of counties) alleges that FWS violated the CRA by not submitting PECE for approval when it was promulgated in 2003. We need to decide who will have lead for working with DOJ to defend the case.
  - b. Action required by Rick: FYI only.
  - c. Due date: Answer or motion to dismiss in 60 days.
  
3. Pryor Mountain mustang litigation
  - a. FWS rejected Friends of Animals petition to list population of wild horses because petition didn't include notification to State (required by petition regs). Challenge includes facial challenge to regs. Helen is handling.
  - b. Action required by Rick: FYI only.
  - c. Due date: Complaint not served, so no deadline for answer yet.

4. Eagle Act regs, etc.
  - a. Philip is assisting FWS in drafting options paper for Gary L. We are also review a draft MOU for Josh Campbell.
  - b. Action required by Rick: Coordinate with Peg?
  - c. Due date: Options paper due 4/23.
  
5. Development of Secretariat for Polar Bear Range States under the 1973 Agreement on the Conservation of Polar Bears
  - a. FWS Assistant Regional Director for Ecological Services (Alaska Region) has requested a meeting with staff from the Department of State and SOL (Shawn) to discuss partnering with the Secretariat for the Convention on Migratory Species and the Arctic Council to carry out administrative support for the Polar Bear Range States. After the Polar Bear Range State meeting, Norway agreed to forward the Range States' interest in partnering with other multilateral agreements to share administrative staff, technology, and other resources to carry out the growing administrative needs of the Parties to the 1973 Agreement on the Conservation of Polar Bears. FWS would like to update the Department of State and Shawn on feedback/proposals from these two international groups in developing a central administrative body.
  - b. Action required by Rick: FYI. No legal or policy issues have been identified at this time.
  - c. Due Date: None at this time. FWS staff are currently considering the response from these two organizations. If and when the Polar Bear Range States decide to enter into any agreement with another multilateral organization, Shawn will notify management. Department of State would likely take the lead on establishing such an arrangement.

## **OLD BUSINESS**

1. Section 4 briefs and arguments in the next month:
  - a. Fisher reply brief, 4/16; hearing, 5/3
  - b. 3 Sierra amphibians brief, 4/17
  - c. Red wolf brief, 4/26
  
2. Meeting with FWS, Canada, and State re: migratory birds
  - a. Philip and I sat in on this meeting, which consisted mostly of the program folks from the two wildlife agencies discussing how to accomplish bird conservation post-M-Opinion. In addition, we discussed having the respect lawyers having regular contact to discuss

developments in our domestic implementing legislation (and implementation and enforcement thereof).

- b. Action required by Rick: None.
- c. Due date: None.

**3. Eagle Act “preservation standard” case [carryover]**

- a. Rick met with Steven Quarles and Jean Williams about possible settlement.
- b. Action required by Rick: Determine settlement position; coordinate with DOJ and Philip?
- c. Due date: We expect to seek a stay until 5/30.

**4. Griz delisting [carryover]**

- a. Ann is coordinating discussion of the FR.
- b. Action required by Rick: None at this time.
- c. Due date: We originally told the court that the FR notice would be published by 3/31; we informed the court that we would need until 4/30.

**5. Mexican wolf 10(j) decision**

- a. Options paper done; next steps regarding appeal recommendation?
- b. Action required by Rick: Provide policy call on appeal recommendation.
- c. Due date: DOJ filing date in early June.

**6. Echinoderm reg [carryover]**

- a. Aurelia is getting input from FWS?
- b. Action required by Rick: None at this time
- c. Due date: None.

What a week! As the end of August approaches and recognizing the hard work and dedication to service our Office models, I wanted to share with you a few articles that the feature the Department's initiatives and people.

All of us in the Solicitor's Office support directly or indirectly the work that goes into drafting, reviewing, or improving many of the underlying legal and policy documents that underscore these initiatives, and many more that don't get the attention they deserve.

For those of you who have not seen these articles in the clips, here are few from Aug 9 and 10.

I would like to add a special thanks to Marigrace Caminiti for her effective and efficient administration of the SOL front office and for her focus on enhanced intra-SOL communications.

Gary, inexplicably I could not get the "draft" watermark to work on these documents when Louise sent them to you earlier. I was able to put in a draft watermark on one of the documents but still could not put in the watermark on the other. I got tired of trying the same thing with no changed result so I finally just put a header in that labels the document as a draft. Please delete the earlier versions that were sent to you so there is no mistake that these are draft documents. Thank you and sorry for the technological issues. Once you've had a chance to digest these, let's talk. Peg P.S. Could you please let me know you got this email as I am test-driving your "SOL" address.

**Subject:** Draft Time, Place, and Manner Regulations

To follow up on our conversation earlier this week, please find attached a draft proposed rule and accompanying preamble seeking to amend the National Park Service regulations concerning demonstrations and special events in the National Capital Region.

At this time, this is still very much a working draft and subject to change.

I know this is a bit of a long document. We're happy to have a conversation that goes on a little longer, however, would it be possible for the appropriate people on your end to let me know if they see any major legal problems we need to address or discuss by the end of next week?

Let me know if this makes sense and if this works for you all.

Thank you very much for your time and help, I greatly appreciate it!

**Subject:** Draft Time, Place, and Manner Regulations

To follow up on our conversation earlier this week, please find attached a draft proposed rule and accompanying preamble seeking to amend the National Park Service regulations concerning demonstrations and special events in the National Capital Region.

At this time, this is still very much a working draft and subject to change.

I know this is a bit of a long document. We're happy to have a conversation that goes on a little longer, however, would it be possible for the appropriate people on your end to let me know if they see any major legal problems we need to address or discuss by the end of next week?

Let me know if this makes sense and if this works for you all.

Thank you very much for your time and help, I greatly appreciate it!

Sincerely,

*Gary Lawkowski*

Gary - here's where I think we are on the issues we discussed Monday. Let me know if I'm missing anything or if you want to discuss any of this.

1. Special events. Friday we will bring draft regulatory language that reflects (b) (5) [REDACTED] One or two NPS folks will attend the meeting. We can also discuss any outstanding issues on cost recovery before Jay starts drafting the preamble. Attached is a slightly updated version of the cost recovery memo I sent you on March 12. Anything else for the Friday meeting?

2. (b) (5) [REDACTED] " regulatory language. Jason is developing (b) (5) [REDACTED]

Relatedly, we will develop draft regulatory language that would address (b) (5) [REDACTED]

We will get you the summary and the language by COB Friday.

You are going to think about the addition of a (b) (5) [REDACTED] ' category.

(b) (5) [REDACTED]

Jay will contact NPS permit staff on what timeframes they think are reasonable, and for other factual information relevant to this regulation. He will have information by COB Friday.

3. Draft regulatory language and how it applies to the inauguration and other celebratory events. Roland is checking the draft language (b) (5)

He will do that by COB Friday. Separately, on the 4-month timeline for inauguration permits, Roland is reviewing the administrative record of the relevant regulation to see what the basis for it was. I'm not sure how quickly he can get through that; we'll know more tomorrow.

4. Demonstration numbers in new parks. Kim is trying to locate the archived record material related to the regulatory numbers for Lafayette Park. We'll keep you posted on our progress. On Friday, Jay will give you an update on progress on building the record for the new parks.

5. Record for structures regulations. Jay will send you a separate email on this.

Thanks,  
Louise

Gary -- see attached, with comment bubbles responding to yours. Also attached are:

- 1) the legal memo flagging the litigation risks we've identified. It would be helpful to discuss this with you further.
- 2) a memo with draft regulatory language for the three provisions that NPS has recommended, along with some background discussion on each
- 3) a paper with first cuts at questions for public comment for the 2 topics you identified.

We have contacted NPS on building a record for the additional parks with exceptions for demonstrations.

Again, my apologies for having the deadlines slip and let me know if you'd like to talk about any of this.

Thanks, Louise

Gary -- see attached, with comment bubbles responding to yours. Also attached are:

1) the legal memo flagging the litigation risks we've identified. It would be helpful

to discuss this with you further.

2) a memo with draft regulatory language for the three provisions that NPS has recommended, along with some background discussion on each

3) a paper with first cuts at questions for public comment for the 2 topics you identified.

We have contacted NPS on building a record for the additional parks with exceptions for demonstrations.

Again, my apologies for having the deadlines slip and let me know if you'd like to talk about any of this.

As of Friday afternoon, NPS was still working on some proposed revisions. I've asked for an update from them today. I should have noted in my earlier emails that NPS said that they were aiming for Friday, but that Tuesday (tomorrow) was more realistic for some of the deadlines in the next steps list. Roland is writing the outline of the litigation risk associated with the current language and hopes to complete it tomorrow.

Separately, attached is a memo (drafted by Jason) that outlines the legal framework for cost recovery from First Amendment applicants. We will follow up with potential questions to ask the public on this topic; let me know if you need anything else on that issue.

Do you want to get something on the calendar for Friday?

Gary - thanks. We'll take a look, though I'm not sure how closely we can review it before the meeting tomorrow. We will review it within the legal framework that we sent initially (attached).

Here's the suggested agenda for tomorrow's meeting, which comes out of the meeting you, Peg and I had last week. Let me know if you have any thoughts before then. There may be some overlap with what you wrote.

1. List of changes to the current regulations that NPS would like to propose based on resource and security issues (attached). If there is no disagreement on these, SOL will work with NPS to draft language for each of them.
2. Permitting -- NPS view of the need for the proposed changes, taking into account the goals you (Gary) expressed.
3. Combination of definitions -- NPS view of the need for the proposed changes, taking into account the expressed goals.

#### Separately

On structures (height, etc), SOL received a draft from NPS yesterday, and is working on regulatory language now. We have questions for NPS on their proposal and the record. Sara can report on the status tomorrow, during or after the meeting.

On cost recovery, SOL is putting together a list of the fees and costs that NPS charges for special event permittees, and an initial, fairly high level assessment of the legal risk associated with charging these fees for First Amendment permittees.

We will have a draft to discuss with you by COB tomorrow, though we will still need a record of NPS reasons for charging the fees.

Thanks,  
Louise
